Report on the Round table meeting for the data society

Feb. 15, 2023 /Data Society Alliance/–

DSA has agreed with all of the participants to continue holding the round table meeting for the data society to promote international collaboration for the realization of a data society.

DSA and IEEE SA P3800 DTS (Data Trading System) WG held a round table meeting for the data society in Brussels from February 6 to February 8, 2023. The agenda for this meeting is shown below.
The meeting was attended by the member of the IEEE P3800 DTS WG, an international standardization activity proposed and promoted by the DSA, and key parties involved in promoting data collaboration in Europe, to exchange views toward mutual understanding and cooperation for the realization of a data society.

As a result of the discussions at the meeting, all of the participants agreed to the following.

1. Cross-border collaboration improves the value of data societies.
2. Improve collaboration with mutual communication contentiously.
3. Continue to have the regular round table meeting every half year.
4. Keep the necessary activities of creating common standards for cross-border data federation.

This will promote the mutual use and interconnection of data internationally and is expected to lead to the creation of services in a variety of data application fields.

Agenda

Day 1: Feb 6th, 15:00-18:00

Japan outreach

1. National Data Strategy and initiatives in Japan

Kenji Hiramoto, Head of Data Strategy, Executive officer / Digital Agency

2. Preparation of ecosystem for regulatory technology

Takafumi Ochiai, Senior Partner, Atsumi & Sakai / Managing Director, Fintech Association of Japan

Day 2: Feb 7th, 09:00-18:00 Presentation
Opening Speach1 (IEEE SA & DSA)

1. **Overview of IEEE P3800 DTS (Data Trading System)** Hiroshi Mano, IEEE P3800 WG Chair
2. **Overview of DATA-EX**
   Noboru Koshizuka, Data Society Alliance
3. **Data Sovereignty as a key enabler for Data Economy and Data Spaces** Sebastian Steinbuss, IDSA C.T.O.
4. **FiWARE 4 Data Space**
   Stefano de Panfilis, Fiware Foundation
5. **The current internationalization efforts of the Catena-X consortium** Steffen Dean Turnbull, Research Associate Safety-Critical Data
6. **Gaia-X Trust Framework – The solution for borderless dataspaces** Roland Fadrany, Gaia-X C.O.O.
7. **Data Space Mesh - How to make data spaces interoperable**
   Maximilian Stäbler, Research Assistant / Saftey Critical Data (SCD) German Aerospace Center (DLR)
8. **BDVA and Industrial AI**
   Thomas Hahn, Chief Expert Software, Siemens AG
9. **Building powerful ecosystems around data exchange & data trading** Didier Navez, Senior Vice President, Dawex
10. **Data trading market with data usage rights** Hiroshi Mano, EverySense, Inc. C.E.O.

Round table

Create and agree on the draft of the action plan for future collaboration works.

Adjourn
Day 3 Feb 8th (9:00-13:00)

*IEEE P3800 WG in person /vertical mix mode meetin*g.
All of you can join this meeting as observers regardless of IEEE membership.

About Data Society Alliance

The Data Society Alliance (DSA) aims to contribute to the realization of an affluent society through fair and free data distribution and utilization across fields (the "data society") in cooperation with industry, government, and academia and partnership with not only Japan but also the rest of the world. As one of these activities, we will promote DATA-EX, a platform aiming at federal-type cross-disciplinary data collaboration, in which existing efforts related to data collaboration are coordinated.
